

# REHAB IS HARD. GIVING IS EASY.

Disabilities impact 1 in 4 lives in the United States. It affects the people we love, the people we work with, the people who make up our communities.

At Allied Services, our staff work to support and improve the quality of life for individuals with disabilities, life-changing injuries, and chronic illnesses. We serve more than 5,000 children and adults in Northeastern and Central Pennsylvania each day.

## Your support matters.

Your support means that we can help more people receive the kind of care that rebuilds, transforms and improves lives.

You can help us to invest in cutting-edge technology that gets stroke survivors walking sooner; you can support therapy programs that help children with autism communicate; you can make it possible for people with disabilities to live safely at home.
